

Crazy Clocks from Border Fine Arts

Telling the time is not straightforward when designer Michelle Allen gets involved. With a heartfelt desire to 'put the fun in function' her distinctive clock designs combine the need to tell the time with humour.

Eight colourful, imaginative and quirky designs join the Allen Clocks collection this spring, ranging from dogs to birdhouses there's something for every taste. The amazing detail packed into every shape is the reason behind the collection's outstanding success, because each clock tells a little story along with the time.

Cake and baking mixers are a basic part of kitchen equipment and Michelle has been inspired by an iconic fifties model to create the unusual Mix it Up Clock. With a cup acting as the clock face and a cup cake swinging below, it's a natural yet inspired subject for a kitchen clock.
