

Inspired by Mackintosh...Created For You

Designed by respected Scottish company, Border Fine Arts, the **Inspired by Mackintosh** range — as the name suggests — has been inspired by one of the most influential artists of the early twentieth century.

After its successful launch last year, January 2016 sees three new items being added to the existing range — all featuring the same bold and decorative art nouveau 'Rose' design. The new introductions include a beautiful **Teapot** and **Cup and Saucer**, perfect for taking afternoon tea in decadent style, plus an exquisite **Glass Photo Frame** for you to display your treasured family photos.

These new items are designed to complement existing pieces in the range and make the perfect addition to any home. Each piece comes in its own beautifully branded gift box featuring our art nouveau-inspired artwork — ready to give as a gift that will be cherished by all.
