

## Four great new Lilliput Lane Cottages

Handmade and hand-painted in Great Britain, **Lilliput Lane** continues to bring the best that our architectural heritage has to offer. Here, we've selected just four of the new pieces from the June 2015 new introductions, each offering different gift and collecting solutions:

**Gateway to York** — inspired by York's famous Micklegate Bar — is the perfect cultural celebration, given this year's Richard III celebrations — the last Yorkist king! For those north of the border, **Mushroom Cottage** is as cute as a button...mushroom! It's inspired by a 'play' cottage in the grounds of Mellerstain House Estate — one of Scotland's finest stately homes. Railway and film enthusiasts will love **Passing Through**, a limited edition inspired by Oakworth Railway Station, near Keighley in West Yorkshire — on the branch line made famous by its appearance in the 1970 film *The Railway Children*, which starred Jenny Agutter and Bernard Cribbins. Finally, as the name suggests, our festive **Christmas Hamper** is a well-known deli from Helmsley, West Yorkshire — the perfect Christmas present!
