

### Border Fine Arts Classic...Forty Years On and Still Finding Exciting New Subjects

Border Fine Arts Classic Sculptures have been entirely hand crafted to exacting standards at our studio in the Scottish Borders since the 1970s. After casting and assembling by hand each one is then hand painted to our high standards, meaning no two will be identical.

Even forty years on, we are still studying subjects for the first time — for example the **White Park Cow & Calf** (pictured), which is launching in January 2015. Classed as 'Minority' by the Rare Breeds Survival Trust, who chose this breed as its logo, the White Park is one of our oldest native breeds of cattle. Also new, is **Sure Footed**, which features a Lake District native Herdwick ewe and her lambs as they cross a stone bridge across a fast flowing beck.

Each Classic figurine comes in a branded box and is presented with a numbered limited edition certificate. A special painting service is also available so you can make each of your BFA Classic pieces completely unique to your collection. Proudly, we are the only manufacturer of high quality, hand painted figurines that still produces from start to finish in the UK.
