

Happy Holidays from The Trail of Painted Ponies

The Trail of Painted Ponies welcomes six new launches for June 2014 and with three of the new stable mates introducing new holiday themes of Halloween, Christmas and Valentine's Day, now there really is a painted pony for all occasions.

There's **Midnight Glow**, a rearing pony whose skeleton glows in the dark. Very scary. Very collectable. **Rodeo Romeo** is fast as the wind and black as night, you can try to resist him with all of your might! And **English Holiday** is dressed in plaid and red and green ribbons — the very embodiment of Christmas!

Empress of the Winds and **Trailblazer** are two native American-inspired ponies inspired by traditions, folklore, art and history, each conveying a different message in a way that only *The Trail of Painted Ponies* can — by astounding you and making you smile. And to complete the collection, there's **Petals**. Pink peony-painted, she is girly, kind and loving.
