

Image Usage Policy

The Enesco image library is for the exclusive use of official Enesco retailers, who have been approved by Enesco and thus deemed reliable and respectful of these restrictions.

Please adhere to these restrictions, which are enforced simply because most of our brands are subject to copyright and trademark restrictions. Due to the nature of many of our brands being licensed by various companies and individual artists, all images, trademark logos and copyrights are protected by either US or international copyright and trademark laws, and as such should be used at all times as they are supplied here.

Images from our image library may be used for promoting the sale of our products including homewares, sculptures and line extensions (boxes, plaques, accessories, etc.), as they exist, through shop fliers, advertisements, catalogues and online catalogues. If your goal is to promote sales of any of Enesco's brands in your store, then you are welcome to use our photographs for any of the above uses.

However, the use of photography of individual product shots as a logo, or in association with promoting a different brand, business, or organization, is strictly prohibited.
